## Features & Benefits

- 120 hour product protection for -80°C to -60°C (-112°F to -76°F) (deep frozen) using dry ice
- Fully reusable solution
- Providing significant environmental advantages over disposable and semi-reusable systems
- Integral datalogger providing full audit trail and real-time internal and external temperature records
- Compatible with wide and narrow bodied aircraft
- Sub-pallet-sized payloads
- No human intervention throughout transit required

\* Internal dimensions not including dry ice and packout
