

Atlas Half Cart
Fits 2

Atlas Full Cart
Fits 4

Aircraft Equipment Compatibility
ACE, ATLAS Standard

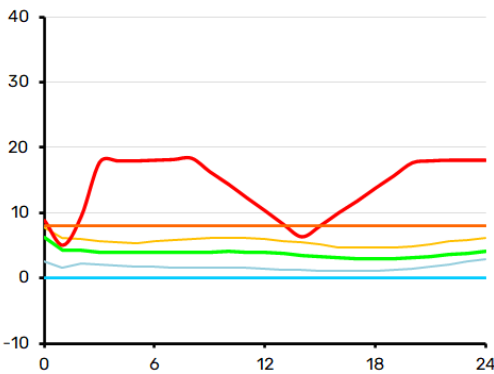

System Tare
8.5 kg

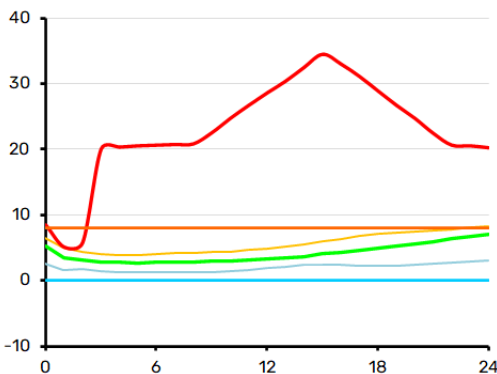

Payload Volume
26.6 L

Features & Benefits

- Our passive temperature controlled boxes maintain food temperature between $< 8^{\circ}\text{C}$ (refrigerated) for 24 hours
- Our boxes are food graded or FDA "known safe" and are 100% reusable.
- They are extremely robust giving a long routable life with no mechanical parts that could fail or require complex maintenance.
- Drives food safety, integrity and innovation.
- Reduces the cost of product loss.
- Provides return catering opportunities and possibilities for the closure of down route stations thus reducing costs or where the uplift does not meet the airline food safety requirements.

Winter

Summer

Red line indicates exposure to ambient temperatures between 20°C and 34°C over a period of 22 hours.
